American-made GuestChecks™

NCCO has produced the original GuestCheck™ in St. Paul, Minnesota for more than 100 years with unparalleled production and sourcing standards.

Sustainable Sourcing.

Promoting sustainable forestry management and responsible purchasing of forest products.

Promoting environmentally sound, socially beneficial and economically prosperous management of the world's forests.

Minimizing impact on human health and the environment while producing quality printed products.

Eco-conscious Production.

NCCO's Green Fuel Waste Reduction program has decreased the amount of waste entering landfills by 220,000 pounds annually.

- Renewable
- Biodegradable
- Low environmental impact

Made in the USA.

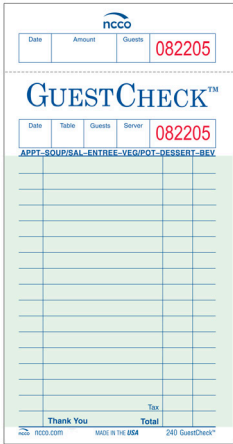

Made for America. By America.

Guest Checks

Providing the best requires the original.

Service is your business and to keep your customers coming back you want to provide the best service you can. The original GuestCheck can help you do just that. The menu prompt at the top is a tool for servers to use to sell the entire menu, especially those high profit items. Mistakes are minimized as there is plenty of room to write the order and any special requests.

Register Ribbons

Register ribbons are the necessary companion to any bond register roll.

For every 10 register rolls, one ribbon is needed.

NCCO ribbons have a guaranteed print yield of 1650 feet of register tape or 10 rolls.

Do you have a tough time sticking to a food rotation system?

Food safety is critical to your business and something that requires constant monitoring. From the cooler to the prep area, it's important to know which products to use first to reduce your risk of spoilage. Food rotation labels can help you:

- Improve inventory management
- Monitor the expiration dates of your food
- Avoid cross-contamination
- Ensure customer safety
- Reduce waste which saves you money

Custom Labels

Instant, affordable branding

Your business relies on a variety of containers to get food and drinks out the door. But printing generic packaging with your brand can lead to high order minimums and a steep price.

Luckily, there's an affordable solution.

By ordering custom labels and stickers through NCCO, your operation can:

- Instantly brand any container or packaging without spending a fortune.
- Enjoy lower minimums and shorter lead times.
- Avoid extra plate charges for multiple colors.
- Free up valuable storage space.

Need more information?

Take the next step toward instant, cost-effective branding by contacting your NCCO sales rep and asking about custom print today. They'll answer any questions you have about lead times, pricing, the ordering process, and more.

We'll get you what you need

When it comes to custom labels, you have options. Our team will work with you every step of the way to make sure you get labels and stickers that meet your specific needs.

Make your labels pop with a full-color imprint

Print with single or full color through our 4-color process. Just let us know, and we'll match your brand PMS colors. Digital printing allows us to create items with vivid colors, photo-quality detail, and sharp, clean text.

Need labels in unique or large shapes? No problem

We're happy to work with you when you need complex designs printed, such as unique shapes, wrap-around extensions, and tear-off sections. And when it comes to labeling extra-large containers such as pizza boxes, we can custom print items that measure up to 15" x 23".

Create layouts for specific uses

Whether it's a label for a to-go order or a grab-and-go item, we can print custom labels that include spaces or checkboxes to record the item's information. These spaces can include everything from a place to record a customer's name to space for marking ingredients.

Instantly brand packaging for takeout, delivery, and grab-and-go

Customized labels increase brand awareness and secure in-transit containers, cups, lids, and bags for grab-and-go, delivery, and takeout. Labels can also include space to record order information and tamper-evident cutmarks that provide extra security and peace of mind.

Ready to order?

Contact your distributor or NCCO sales rep to learn more about lead times, request a quote, or place an order. You can also learn more by visiting ncco.com/custom-print.

Leave guests with a good impression

Servers can carry more on their person, making it quicker to present the bill and offering the customer a better experience.

SMART LABEL SOLUTIONS **AT YOUR COMMAND**

Take the next step toward efficiency through automated labeling

Although it's not your top priority, labeling plays an essential role in your business. To make the process smooth and simple, you need an all-in-one system to create every label your restaurant requires. For that, there's the DateCodeGenie®.

This single solution allows you and your team to automate, standardize, and accelerate the labeling process so that you can get back to what you do best—delighting your customers.

Boost productivity & increase efficiency

Comply with food safety standards

Manage items across your operation

Maximize your labeling potential

For more information or to schedule a virtual demo, contact your foodservice distributor or visit ncco.com/date-code-genie

There's labeling and then there's the DateCodeGenie®

A user-friendly experience from start to finish

With a few clicks, your staff can design, print, and switch between different labels, whether they're for food prep, delivery orders, retail items, or more.

Take the difficulty out of label creation

Our drag-and-drop label builder takes the complexity out of design. Use custom fonts, logos, and branding to modify existing templates or build from scratch. Access designs from anywhere through the online portal.

Manage devices across several locations

The DateCodeGenie cloud-based portal allows you to standardize information across multiple locations. Use it to control menu items, label designs, and device settings for every DateCodeGenie your business owns.

Automatic software updates every 24 hours

With cloud connectivity, the DateCodeGenie eliminates the need for manual updates or additional software purchases. The DateCodeGenie automatically updates its software every 24 hours.

Backed by an industry- leading warranty

Our team of experts can help kitchen staff find the answers they need. And since we feel so confident in the quality of the DateCodeGenie, every device includes a warranty to protect against manufacturing defects.

Share resources through the multimedia gallery

The multimedia gallery gives staff access to recipes, videos, and training materials that administrators manage through the central portal. Use this space to house the resources your team needs to succeed.

A family of solutions

Chef's knife, paring knife, bread knife— each works best for a specific use. The same principle applies to the DateCodeGenie® enterprise of solutions.

One
2" Printer

DateCodeGenie® X2

Includes one 2" printer encased in stainless steel housing for added protection from everyday use.

SKU DCGX2
SKU DCGX2-C (USB accessory compatible)

Two
2" Printers

DateCodeGenie X22

Two 2" printers allow for double the label production and increased workflow. Stainless steel covering protects the device from moderate wear-and-tear.

SKU DCGX22
SKU DCGX22-C *(USB accessory compatible)

2" Printer +
3" Printer

DateCodeGenie X23

Stainless steel housing holds a 2" and a 3" printer, which allows for a broader range of label creation without having to retool the printer.

SKU DCGX23
SKU DCGX23-C *(USB accessory compatible)

DateCodeGenie 2.0

The single printer in this model accommodates both 2" and 3" labels, which drop in for quick, easy reloading. A stainless steel cover provides extra protection for the screen.

SKU DCG2.0
SKU DCG2.0-C *(USB accessory compatible)

DateCodeGenie Fit

This compact, wall-mounted device stays up and out of the way in tight spaces. Its detached printer handles 2" and 3" labels that drop in for easy loading.

SKU DCGFIT

DateCodeGenie Lite

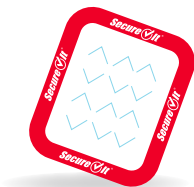

This portable solution works perfectly for smaller spaces. Its 10" tablet includes a protective silicone case. And its stand-alone printer easily handles 2" and 3" labels.

SKU DCGLITE

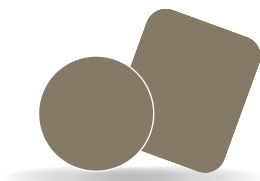

Learn more about DateCodeGenie accessories by scanning the QR code or by visiting ncco.com/date-code-genie/dcg-hardware-software.

When it comes to finding the right label, *you have options*

TAMPER EVIDENT

SecureIt™ tamper-evident labels seal delivery orders and to-go containers, reassuring customers their food is safe to enjoy.

KRAFT PAPER

With its warm, earthy tone, kraft paper gives labels a welcoming, organic feel. Many of our labels have kraft options.

PREP LABELS

Made for various prep uses, these labels automatically populate with use-by dates, shelf life, food codes, and more to reduce errors.

CUSTOM PRINTED

These pre-printed, full-color custom labels help businesses increase brand awareness and make a statement.

DAY OF THE WEEK

By using a color-coded system to show made-on and use-by dates, these prep labels reduce errors, waste, and contamination.

GRAB AND GO

These permanent labels make it easy to mark to-go items with prices, allergens, nutritional facts, and more.

ADHESIVES

Permanent Adhesive

Strong adhesive best for use on disposable containers, most cost-effective.

Minimum Application Temp: -20°F
Service Temp Range: -65°F to +200°F

Dissolving Adhesive

A biodegradable label that dissolves completely in water within seconds.

Minimum Application Temp: 21°F
Service Temp Range: -40°F to 176°F subject to facstock limitations

Removable Adhesive

Removes cleanly without leaving residue. Ideal for containers that require washing.

Minimum Application Temp: +40°F
Service Temp Range: -65°F to +180°F

DuraPeel Adhesive

A water-resistant, plastic coated, reusable label that works best in steamers.

Minimum Application Temp: +20°F
Service Temp Range: -10°F to +120°F

High Temp Adhesive

Perfect for use on disposable surfaces such as foil or heat safe bags that will be discarded.

Minimum Application Temp: -20°F
Service Temp Range: -30°F to +200°F

Super Removable Adhesive

Strongest removable adhesive, leaves no residue on items that are washed.

Minimum Application Temp: +20°F
Service Temp Range: 20 to 250°F
