APOC

### Material Type

- High Density
- Blended
- Low Density
- Paper

White / Brown Options

Whether it's a POS system, credit card machine printer or a kitchen receipt printer, you depend on your rolls to be high quality, long lasting and there when you need them. We have the right register roll for every situation, including thermal, one ply and even two-ply rolls. RegistRolls® also have a unique adhesive-free starter edge to simplify roll changes and eliminate paper waste. We can accommodate any machine used for any purpose with a variety of lengths and styles, and our rolls are always made in the USA with recycled materials and BPA-free thermal paper.

## EcoChoice Hand Sanitizer

- Fast-acting gel formula kills 99.99% of common illness-causing bacteria & germs in 15 seconds or less
- Kills most foodborne illness-causing bacteria commonly found in foodservice operations
- Quick-drying formula includes a moisturizer to soothe skin

## Low Density and High Density Can Liners

### Low Density Can Liners

Low density trash bags are thick, flexible and highly resistant to puncturing and tearing.

### High Density Can Liners

High density are thinner and not as puncture resistant. However, they can still carry very heavy loads that are not rough-edged such as clothing, towels and dirt.

## MICROLITE® CONTAINERS

### THE CLEAR CHOICE IN REUSABLE MICROWAVABLE PACKAGING

VARIETY OF SIZES – ONE LID FITS ALL

Containers in 8, 12, 16, 24, and 32 oz. sizes share a common top diameter for one lid to fit every polypropylene (PP) deli tub. Two different lid styles available; thermoformed PP inside fit for portion control and injection molded PP over-cap lid design to fill food to the rim to maximize sales by the pound.

#### A CLEAR ADVANTAGE

Show off the freshness and high quality of fine food with the clear, smooth side design. Perfect for hot or cold foods, food visibility assures no order errors. Behind the counter or on display for grab 'n go, the package clarity lets the food do the selling.

#### STRONG & LEAK RESISTANT

Tough and durable polypropylene deli containers and lids are resistant to fats and oils. The leak-resistant closure keeps juice and liquid inside with no messy spills and the sturdy construction prevents cracking during handling.

#### VERSATILE & MICROWAVABLE

From refrigerator to microwave to table and left-over storage, resilient package design works well for a wide assortment of food applications. Custom printing on containers and lids is available for brand awareness to encourage repeat business. Premium rectangular deli tubs with custom color lids are also available.

*Reuse and Recycle - Strong and durable polypropylene containers and lids are consumer reusable, dishwasher safe, and eligible for recycling after multiple uses. For more information about custom printing or premium rectangular deli containers with custom color lids, check the WHERE TO BUY tab on our website for a representative near you.*

### FOODHANDLER® THINSENSE™ GLOVES

#### FoodHandler® thinsense™ Nitrile Gloves

Thinsense™ is an innovative new brand you can trust for performance, comfort and value! Thinsense™ Nitrile gloves are the latest generation of nitrile gloves. At the thinnest nitrile formulation available in the market, thinsense™ performs with exceptional strength to task as higher weight nitrile gloves to provide superior market differentiation and value.

## NCCO FOOD LABELS

DuraPeel® food rotation labels can be removed before or after washing without leaving any residue. These synthetic coated labels are durable and don't break down in water.

# Prepared Foods

## EYE-CATCHING ERGONOMIC DESIGN

Attractive black or natural bases from 12 to 32 oz, and a 2-comp base designed with smooth sides for ease of use. Two footprints in three depths with interchangeable lids to fit each set of bases. Keeps the operation running smoothly and simplifies ordering. Dome lids in both polypropylene and RPET have a smooth, sleek look with wide panels to view food contents. A flat RPET lid is available for M400 Series.

## VISIBILITY DRIVES SALES AND REDUCES ERRORS

High clarity RPET flat and dome lids with integral Clear Guard™ anti-fog technology eliminates condensation on lids in refrigerated cases to increase impulse sales. Clear, anti-fog, vented, polypropylene dome lids keep food looking fresh in the hot case and prevents order errors.

## REDUCE, REUSE, RECYCLE

Containers made with natural mineral additive reducing the use of petroleum based polypropylene resin by 40%. Bases and PP domes are dishwasher safe providing consumer convenient reusability. RPET flat and dome lids are made with a minimum 10% FDA approved post-consumer recycled content. All bases and lids are eligible for recycling. ♻️ ♻️

## LEAK RESISTANT AND TABLE READY

Closure design keeps lids secure during handling and transport with leak-resistance to eliminate messy spills. Packages are designed to stack on display and in the bag. Strong, durable bases provide table-ready presentation in a cut-resistant material.

## HIGH HEAT PERFORMANCE AND MICROWAVABLE

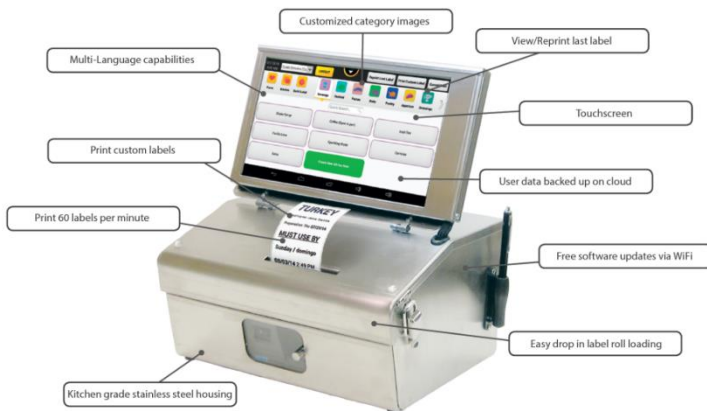

Bases and polypropylene dome lids will withstand temperatures to 230°F in warming unit, under heat lamps and in the microwave. No need to re-plate chilled prepared foods to be reheated in the microwave at home, work or on the go.

## DATE CODEGENIE™

### Ensure consistent food prep and minimize waste

Food preparation requires time and energy and is an important part of any kitchen. Not only do you have to make sure the right ingredients are prepared, you also need to know which to use first.

## Gourmet-To-Go®

These carry-out containers enable easy transition of food, as they are suitable for use in the freezer, in the oven, and on the table, for simple serving.

## FOODHANDLER® ONESAFE™ BLACK NITRILE

Foodhandler's oneSAFE® Black Nitrile powder free gloves are the latest addition in the food industry. Our new glove dispensing system enables you to provide a higher level of safety to your foodservice operation. Its ease of use can help significantly reduce the risk of cross-contamination, reduce waste, and decrease your operation's environmental footprint.

## BOXit Corporation

BOXit Corporation has excellent customer service, creative product design, and a vast assortment of in-stock sizes and colors of bakery boxes and inserts. Need something unique, our manufacturing capabilities allow us to produce a variety of sizes, styles, and print solutions for a wide range of markets. BOXit is sensitive to our environment and utilizes raw materials that are both recycled, renewable and responsibly sourced.

### BAKERY BOXES

Our products include cake boards and drums, cake and pastry boxes, cupcake liners and stands, tulip and muffin cups, and disposable piping bags.

# Meat and Seafood

## Freezer Paper (available in Rolls & Sheets)

Durable, moisture resistant, and FDA approved. The poly-coated layer prevents juices from leaking during transport and protects from freezer burn during storage. Allows for a form-fit bond removing air and providing long-lasting quality.

## Butcher Paper (available in Rolls & Sheets)

- Versatile paper often seen behind the meat case at the grocery store or in a butcher shop. Makes an excellent table cover at restaurants to protect linens from liquids.
- Specially treated during the paper-making process, allowing it to keep its physical integrity while holding liquids and wrapping meat.
- Available colors: Natural, white and pink. Pink butcher paper may be used as BBQ and meat smoking paper.

Dyne-a-pak offers a new generation of food trays with a minimum guarantee of 50% recycled content. By replacing part of the raw materials with recycled material, Dyne-a-pak further reduces the environmental impact of polystyrene foam packaging and participates in the efforts toward a circular economy.

**Inferno** is a multiple-use, liquid cleaner for cleaning anywhere in below-freezing conditions. Inferno can resist freezing in temperatures as low as -44°F and has rinsability to 0°F. This makes Inferno a perfect option for cleaning food lockers, docks, commercial freezers, and any other below-freezing areas.

**Caliber** is a multi-purpose and multi-surface neutral cleaner. It can be used in spray bottles, auto scrubber, mopped on and even through foaming and brush methods. Caliber's designed surfactants penetrate, release, and clean while being free-rinsing and non-dulling for even finished floors.
