## ABCO is completely eco-friendly

At ABCO Products, sustainability means innovative manufacturing processes & products that create value for our customers & our society without compromising the environment.

ABCO Products utilizes vertically integrated, GREEN, Manufacturing Processes to produce environmentally friendly Cleaning Tools.

-  9 million pounds of clothing scrap that would otherwise end up in landfills or incinerators are recycled to produce the Natura line of wet mops & dry mops.
-  8.1 liter plastic bottles & 200 bottle caps are recycled to produce ABCO's Line Multi-Purpose Brooms.
-  75% less corrugate & packaging film is used when mops are in Brik-Pak
-  All packaging is made from recycled materials.
